

SNOW 300 - Self-loading salt spreader with roller distribution

Working width 1 meter, capacity 0,3 m³ / 300 l

All models are equipped with:

- Standard filtering grids
- Double acting hydraulic control for self-loading
- Bottom with anti-wear rubber coating
- Hydraulic motor for distribution roll driving

SNOW 1000 - Self-loading salt spreader with spreading disc

Working width from 1,5 to 7 meters, capacity 1 m³ / 1000 l

All models are equipped with:

- Standard filtering grids
- Double acting hydraulic control for self-loading
- Stainless steel spreading disc
- Hydraulic disc drive
- Hydraulic motor for feeding auger driving
- Double acting hydraulic control for doser
- Manual adjustment of asymmetric distribution

SNOW 1500 - Self-loading salt spreader with spreading disc

Working width from 1,5 to 7 meters, capacity 1,5 m³ / 1500 l

All models are equipped with:

- Standard filtering grids
- Double acting hydraulic control for self-loading
- Stainless steel disc
- Hydraulic disc drive
- Hydraulic motor for feeding auger driving
- Double acting hydraulic control for doser
- Manual adjustment of asymmetric distribution

Models	SNOW 300 *	SNOW 1000 *	SNOW 1500 *
N. hydraulic couplings	2 **	2 **	2 **
Max. hydraulic pression (Bar)	120	120	120
Max. oil capacity (l/min)	40	60	60
Salt dosing (g/m²)	0 - 40	0 - 40	0 - 40
Dosing "splitt" (g/m²)	0 - 200	0 - 200	0 - 200

* On all self-loading models: a hydraulic coupling controls the hydraulic piston for loading/unloading.

** Each hydraulic coupling is double-acting

Mod. **SNOW 300**: the second double-acting coupling controls the hydraulic motor which moves the cylinder spreader

On the models **SNOW 1000** and **SNOW 1500**: the second double-acting connection controls: the motor of the auger, the motor of the spreading disc and the opening and closing damper.

Self-loading salt spreader with roller distribution

Models	Capacity (m³/l)	Maximum load (kg)	Weight (kg)	Length (cm)	Width (cm)	Height (cm)
SNOW 300	0,3 m³ / 300 l	350	250	84	152	79

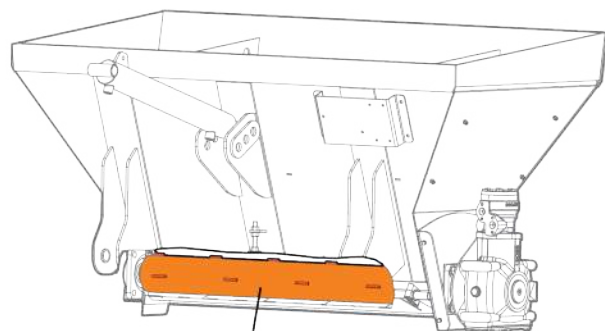

Self-loading salt spreader with spreading disc

Models	Capacity (m³/l)	Maximum load (kg)	Weight (kg)	Length (cm)	Width (cm)	Height (cm)
SNOW 1000	1 m³ / 1000 l	1250	550	100	180	140
SNOW 1500	1,5 m³ / 1500 l	1850	650	100	245	140

MANAGEMENT COMPUTER

SNOW 300

Easy One

Easy One computer: It controls the speed of the cylinder distributor directly from the tractor.

SNOW 1000 - 1500

Easy Jet

Easy Jet computer: the speed of the disk and of the auger is controlled by this computer for flow regulation from the tractor.
