

XD130

XD130

Vibratory Roller

XD130 is suitable for compaction of soil and asphalt pavement in narrow areas such as sidewalks, parking lots and residential roads, it can also be used for compacting thin stable soil layering, which is an ideal compaction equipment for asphalt surface laminating in municipal maintenance and high-speed pipe maintenance.

Performance and characteristics

- 60Hz high frequency vibration, 920mm large diameter roller, effectively improve the quality of compaction.
- Large-capacity water tank, interval controlled sprinkling for prolonged operation.
- Drum and articulated frame are maintenance-free during

the whole life cycle.

- Sliding operation mechanism for more convenient edge compaction.
- Sliding operation mechanism for more convenient edge compaction.
